Subject: FYI - Clyde article and sidebar hot issue

Hi Maryann and Steve,

My Public Affairs office finally showed me the Sandusky Register article about the Administrator's broken promise that caused all the fuss. I've attached it.

Your excellent hot issue was bottled up somewhere and wasn't sent to me until this morning so I was freaking out.

I decided to write a separate hot issue about the Register article. Maybe Anne or the RA will delete it, [REDACTED] Below is what I wrote.

thanks for all your help. Probably haven't heard the last from Clyde, have we.
